DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, drawn to an optical device with a plurality of gatable portions.

Group II, claim(s) 16-23, drawn to a waveguide.

Group III, claim(s) 24-29, drawn to a method of manufacturing the waveguide.

Group IV, claim(s) 30-33, drawn to an electro-optic device having a plurality of gatable portions and a waveguide.

2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups IV and Groups I and II are related as combination/subcombination. Further, the invention of Group I does not require the waveguide as claimed in Group II. Lastly, in the inventions of Groups II and IV any method of manufacturing the waveguide is possible.

3. A telephone call was made to Ernest Chapman on July 24, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
